

4 tips to help you invest in the low-carbon economy

Peter Sopher / Published May 5, 2015

[...]

These index funds enable investors who want to get behind an industry, but lack confidence in their abilities to identify specific winning companies, to bet on the industry at large. Two examples of clean energy index funds:

- PowerShares Global Clean Energy Portfolio: This ETF is based on the Wilder Hill New Energy Global Innovation Index, which includes 107 companies focused on a broad spectrum of clean technologies.

[...]
